RATIFICATION MEETING.

Mr. C. D. Chenault, Chairman of the Democratic County Committee, has called a meeting of the Democrats of the county, to assemble at the Court-house in Richmond, on next Monday, July 2nd, to ratify the nomination of Cleveland and Thurman. A number of prominent speakers have been invited. Every Democrat should be present.

THE CITY BONDS.

The day will soon be here for the voters of Richmond to say whether or not the city of Richmond shall issue bonds to pay her outstanding indebtedness. Have you thought the matter over? Do you know how much the city owes? Do you know how much is due the city? Have you any idea as to whether bonds should be issued, or not issued? That the debts ought to be paid, and paid at once, everybody admits. But the best means of paying them is the question.

GROWING.

Richmond, Va., called the "seven hill city of the South," had, by actual figures January 1st, 1888: Population, with Manchester (separated only by the river) 100,000; Capital in business, \$20,475,546.00; Annual sales \$68,887,340.00; 630 manufacturing establishments, employing 19,981 hands; Value of real and personal property, \$51,051,606.00; Of Government property there is eight to ten millions more. Banking capital, \$2,220,000.00; Surplus and undivided profits, \$1,300,000.00. The longest electric railway on earth.

HARRISON AND MORTON.

After a week's arduous labor, the National Republican Convention, assembled in Chicago, on Monday nominated Gen. Ben. Harrison, of Indiana, for President, and Hon. Levi P. Morton, of New York, for Vice President. Harrison was nominated on the eighth ballot, and Morton on the first.
Hon. W. O. Bradley, of Kentucky, received 103 votes for Vice President. The vote stood: For Morton, 591; Phelps, 119; Bradley, 103; Bruce, 11; Thomas, 1.
Senator Bennett finally voted for Harrison, although a Sherman man.

McCREARY CLUB.

The Democrats of Shelby county assembled on last Saturday, formed a Democratic campaign club, and named it in honor of Governor James B. McCreary. The preamble reads: "Believing that the welfare of the country and the perpetuation of the best form of government the world has ever known, depends upon the enforcement of the principles held by the Democratic party, and realizing the fact that the governmental affairs be administered by the Democratic party, and recognizing that an efficient organization in Shelby county will aid materially in securing these results, we have formed ourselves into a campaign club to be known as the McCreary Club of Shelby county."

TEMPUS FUIGIT.

Mr. James W. Hopper, for eighteen years editor of the Lebanon Standard, has permanently retired from the newspaper business. Mr. Hopper was uniformly pleasant, and successful from the beginning. But the business is a fascinating one, and are long we hope to see the genial old quill-driver return to his post.
Newspaper changes are rapid. The retirement of Mr. Hopper leaves scarcely more than half a dozen editors in Kentucky who have been longer in the business than the editor of THE CLIMAX. We recall the names of Mr. Green of the Register, Col. Craddock of the Paris Kautuckian, Col. Henry Duncan of the Lexington Press, Dr. John D. Woods, of the Frankfort Capital, Mr. Emmett Logan, of the Louisville Times, Col. Folk Johnson, Mr. Donald Padman and Mr. Watterson of the Courier-Journal, who were seated on their respective tripods when we began our career, thirteen years ago. There may be another one or two, somewhere about the State. Of the gentlemen mentioned, Dr. Woods, Mr. Logan and Col. John Johnson have changed papers, the others remaining steadfast as the boy who stood on the burning deck.

THE PLATFORM.

The Republicans of the United States, assembled by their delegates in National Convention, pause on the threshold of their proceedings to honor the memory of their first great leader, the immortal champion of liberty and the rights of the people—Abraham Lincoln, and to cover all with wreaths of imperishable remembrance and gratitude the heroic names of our late leaders who have more than ever called away from our councils—Grant, Garfield, Arthur, Logan, Conkling. May their memories be faithfully cherished. We also recall with our greetings and with prayer for his recovery, the name of one of our living heroes whose memory will be treasured in the history books of the Republic—the name of that noble soldier and favorite child of victory, Philip H. Sheridan.

In the spirit of these great leaders, and of our own devotion to human liberty and with that hostility to all forms of despotism and oppression which is the fundamental idea of the Republican party, we send fraternal congratulations to our fellow-Americans of Brazil, upon their great act of emancipation which completed the abolition of slavery throughout the two American continents. We earnestly hope that we may soon congratulate our fellow citizens of Irish birth upon the joyful recovery of home rule for Ireland.

We reaffirm our unswerving devotion to the national constitution and to the dissolution of the States, to the autonomy reserved to the States under the constitution, to the personal rights and liberties of citizens in all the States and Territories in the Union; and especially to the supreme and sovereign right of every lawful citizen, rich or poor, native or foreign born, white or black, to cast one free ballot in public elections, and to have the ballot duly counted. We hold the free and honest popular ballot and the just and equal representation of all the people to be the foundation of our Republican Government, and demand effective legislation to secure the integrity and purity of elections, which are the fountain of all public authority. We charge that the present administration has followed by general disunion to all interests except those of the issuer and sheriff. We denounce the Mills bill as destructive to the general business, the labor and the farming interests of the country, and we heartily endorse the consistent and patriotic action of the Republican Representatives in Congress in opposing its passage.

A PARTY OF PROTECTION.

We are uncompromisingly in favor of the American system of protection. We protect against its destruction, as advocated by the President and party. They serve the interests of Europe; we will support the interests of America. We accept the issue, and confidently appeal to the people for their judgment. The protection system must be maintained. Its abandonment has been followed by general disaster to all interests except those of the issuer and sheriff. We denounce the Mills bill as destructive to the general business, the labor and the farming interests of the country, and we heartily endorse the consistent and patriotic action of the Republican Representatives in Congress in opposing its passage.

WE CONDEMN THE PROPOSITION.

We condemn the proposition of the Democratic party to place wool on the free list, and we insist that the duties thereon shall be adjusted and maintained so as to furnish full and adequate protection to that industry.
The Republicans would effect all needed reductions of the national revenue by repealing the taxes upon tobacco, which are an annoyance and a burden to agriculture, and the tax upon spirits used in the arts and for mechanical purposes; and by such revision of the tariff laws as will tend to check imports of goods which are produced by our people, the production of which gives employment to our labor, and release from import duties those articles of foreign production (except luxuries), the like of which can not be produced at home. If there shall remain a larger revenue than is requisite for the wants of the Government, we favor the entire repeal of internal taxes rather than surrender any part of our protective system, at the joint behest of the whisky trusts and the agents of foreign manufacturers.

WE DECLARE OUR HOSTILITY.

We declare our hostility to the introduction into this country of foreign contract labor and of Chinese labor, alien to our civilization and Constitution, and we demand the strict enforcement of the existing laws against it, and favor such immediate legislation as will exclude such labor from the country.
We declare our opposition to all combinations of capital, organized in trusts or otherwise, to control, arbitrarily, the condition of trade among our citizens; and we recommend to Congress and the State Legislatures in their respective jurisdictions such legislation as will prevent the execution of all schemes that oppress people by undue charges on their supplies, or by unjust rates for the transportation of their products to market. We approve the legislation by Congress to prevent alike unjust burdens and unfair discriminations between the States.

WE REAFFIRM THE POLICY.

We reaffirm the policy of appropriating the public lands of the United States to be homesteads for American citizens and settlers, not aliens, which the Republican party established in 1862, against the persistent opposition of the Democrats in Congress, and which has brought our great Western domain into such magnificent development. The restoration of unearned railroad land grants to the public domain for the use of actual settlers, which was begun under the administration of President Arthur, should be continued.
We deny that the Democratic party has ever resented one acre to the people, but declare that, by the joint action of Republicans and Democrats, about 50,000,000 of acres of lands, originally granted for the construction of railroads, have been restored to the public domain, in pursuance of the conditions imposed by the Republican party in the original grants. We charge the Democratic Administration with failure to execute the laws securing to settlers titles to their homesteads, and with using appropriations made for that purpose to harass innocent settlers with spies and prosecutions under the false charge of exposing frauds and vindictive laws.

AS TO THE TERRITORIES.

The government by Congress of the Territories is based upon necessity only to the end that they may become States in the Union. Therefore, whenever the condition of population, material resources, public intelligence and morality are such as to insure a stable local government therein, the people of such Territories should be permitted, as a right inherent in them, to form for themselves constitutions and State governments and be admitted into the Union. Pending the preparation for Statehood all officers thereof should be selected from the bona fide residents and citizens of the Territory wherein they are to serve. South Dakota should of right be immediately admitted as a State in the Union under the constitution framed and adopted by her people, and we heartily endorse the action of the Republican Senate in twice passing bills for her admission. The refusal of the Democratic House of Representatives, for partisan purposes, to favorably consider these bills,

is a willful violation of the sacred American principle of local self-government, and merits the condemnation of all just men.

The pending bills in the Senate for acts to enable the people of Washington, North Dakota and Montana Territories to form constitutions and establish State Governments, should be passed without unnecessary delay. The Republican party pledges itself to use its power to facilitate the admission of the Territories of New Mexico, Wyoming, Idaho and Arizona, to the enjoyment of self-government as States, such of them as are now qualified, as soon as possible, and the others as soon as they may become so.
The political power of the Mormon church in the Territories, as exercised in the past, is a menace to free institutions too dangerous longer to be suffered. Therefore we pledge the Republican party to appropriate legislation asserting the sovereignty of the nation in all Territories, wherever the same is questioned, and the furtherance of the same to place upon the statute-books laws stringent enough to divorce the political from the ecclesiastical power, and thus stamp out the attendant wickedness of polygamy.

A WHOLE LIST OF REFORMS.

The Republican party is in favor of the use both of gold and silver as money, and condemns the policy of the Democratic administration in its efforts to demonize silver.
We demand the reduction of letter-postage to one cent for a republic like ours, where citizen is the sovereign and the official the servant, where no power is exercised except by the will of the people, it is important that the sovereign—the people—should possess intelligence. The free school is the promoter of that intelligence which is to preserve us a free nation; therefore the State or Nation, or both combined, should support free institutions of learning sufficient to afford to every child growing up in the land the opportunity of a good common school education.

We earnestly recommend that prompt action be taken by Congress in the enactment of such legislation as will best secure the rehabilitation of our American merchant marine, and we protest against the passage by Congress of a free ship bill as calculated to work injustice to labor by lessening the wages of those engaged in preparing materials as well as those directly employed in our ship yards. We demand appropriations for the early rebuilding of our navy; for the construction of coast fortifications and modern ordnance and other approved modern means of defense for the protection of our defenses, harbors and cities; for the payment of just pensions to our soldiers for necessary works of national importance in the improvements of harbors and the channels of internal, coastwise and foreign commerce; for the encouragement of the shipping interests of the Atlantic, Gulf and Pacific States, as well as for the payment of the maturing public debt. The policy will give employment to our labor, activity to our various industries, increase the security of our country, promote trade, open new and direct markets for our produce and cheapen the cost of transportation. We affirm this to be far better for our country than the Democratic Policy of loaning the Government money with interest to "pet banks."

ARRAIGNING DEMOCRACY.

The conduct of affairs by the present Administration has been distinguished by its inefficiency and its cowardice. Having taken the Senate and the House of Representatives affected by the Republican treaties for the removal of foreign burdens and restrictions upon our commerce, and for its extensions into better markets, it has neither effected nor proposed any others in their stead. Professed adherence to the Monroe doctrine, it has seen with idle complacency the extension of foreign influence in Central America and of foreign trade everywhere among our neighbors. It has refused to charter, sanction or encourage any American organization for constructing the Nicaragua canal, a work of vital importance to the commerce of the Atlantic, Central and South America and with the islands and further coasts of the Pacific Ocean. We arraign the Democratic Administration for its weak unpatriotic treatment of the fisheries question, and its pusillanimous surrender of the privileges of which our fishing vessels are entitled in Canadian ports under the treaties of 1818, the reciprocal maritime legislation of 1830, and the comity of nations which Canadian fishing vessels receive in the ports of the United States. We condemn the policy of the present Administration and the Democratic majority in Congress toward our fisheries as unfriendly and conspicuously unpatriotic, and as tending to destroy a valuable national industry, and an indispensable resource of defense against a foreign enemy.

THE NAME OF AMERICAN APPLIES ALIKE.

The name of American applies alike to all citizens of the republic, and imposed upon all alike the same obligation of obedience to the laws. At the same time citizenship is and must be the panoply and safeguard of him who wears it, and protect him, whether high or low, rich or poor, in his civil rights. It should and must afford him protection at home, and follow and protect him abroad, in whatever land he may be on a lawful errand.

AS TO THE WOUNDINGS.

The men who abandoned the Republican party in 1854, and continue to adhere to the Democratic party, have deserted not only the cause of honest government, of sound finance, of freedom and purity of the ballot but especially have deserted the cause of reform in the civil service. We will not fail to keep our pledges because they have broken theirs, or because their candidate has broken his. We therefore repeat the declaration of 1854, to-wit: "The reform of the civil service auspiciously begun by the Republican administration, should be completed by the further extension of the reform system, already established by law, to all the grades of official patronage, and the grades of the spirit and purpose of the reform should be observed by all executive appointments and all laws at variance with the object of existing reform legislation should be repealed, to the end that the dangers to free institutions which lurk in the power of official patronage may be wisely and effectively avoided."

The gratitude of the nation to the defenders of the Union can not be measured by laws. The legislation of Congress should conform to the pledges made by a loyal people, and be so enlarged and extended as to which it is applicable. The loyalty that any man who honorably wore the Federal uniform shall become an inmate of an almshouse, or dependent upon private charity. In the presence of an overflowing treasury it would be a public scandal to do less for those whose valorous services saved the government. We denounce the hostile spirit shown by President Cleveland in his numerous vetoes of bills for pension relief and the action of the Democratic House of Representatives in refusing even a consideration of general pension legislation.
In support of the principles herewith enunciated, we invite the co-operation of patriotic men of all parties, and especially of all working men, whose property is seriously threatened by the free trade policy of the present Administration.

Wool.

The wool season has closed. Covington, Arnold & Co. bought 22,000 pounds, Crooke, Bennett & Urmon bought 14,000 pounds, and G. B. Turkey 10,000. The price averaged 23 cents. This brings into the county about \$10,500. But little wool remains in the county.

Garnett House sold.

Dr. George W. Evans and C. S. Powell bought, on last Wednesday, of the Garnett heirs at Glasgow, the Garnett House in this place. At the expiration of the lease of the present proprietor, Mr. Hart, the house will probably be converted into business houses with Odd Fellows Temple and offices above. The lease has however some time to run.

An Opera House Fitting.

It is entirely probable that a party in Richmond will purchase the second and third stories of the First National Bank building, now owned and occupied by the Masons, and convert the same into an opera house. The building will be extended back some distance. In the event of this deal, the Masons will proceed at once to erect an imposing temple. These are two much needed institutions in Richmond—an opera house and a Masonic Temple.

The Woman's Conference.

Last week THE CLIMAX announced the delegates to the Woman's Conference of the Missionary Society of the Methodist Church, and the week before, the program. The conference assembled on Tuesday and continued throughout the week, extending the full and varied program. Miss Belle Bennett's address of Welcome was delightfully presented. Everybody who attended pronounced the conference a complete success. Rev. Mr. Poynter, Shelbyville, delivered two lectures relative to woman's work in and out of the church, and was especially applauded by those who held woman's rights views. The delegates, one and all, pronounced the ladies of Richmond and vicinity the peers of any on earth.
